

HP Virtual TapeServer for NonStop – storage options update

HP is pleased to announce that, effective 19 October, 2009; HP will release a new storage offering to the HP VTS product line. The new HP VTS storage option is described below:

HP VTS Server Updates:

VT5904-H: new HP VTS Add-on 300GB 3G SFF SAS HDD for VT5900-J and VT5900-H VTS models. This option replaces the previous 146GB HDD orderable under the VT5904-E PID.

When ordering VT5904-H for a VTS server, a quantity of 8 is required. These new, higher capacity, hard disk drives will be available under Controlled Availability (CA) on 10/19/2009.

All other HP VTS software licenses and available product features remain the same. HP VTS servers are compatible with all versions of S-Series, NS-Series and NonStop BladeSystem servers.

Prices, detailed descriptions, and additional requirements for the VT5904-H will be available on 10/19/09.
